The Daily Intelligencer makes its bow in a new form to-night, and you'll excuse us just a mom while we "talk shop." Since the present manage-

ment took the paper in charge our circulation and advertising patronage has gone up like a house a-fire. The present is the third enlargement which has been found necessary. Hereafter, when necessity demands it, The Intelligencer will published in eightform. No one page seems to be surprised at the increasing business done by this paper. It's enly another example of what hustling and ag-gressiveness will do. By always trying to be on the right side on public ques-tions, both political and local, we have gained the respect and good will of the best people in Belleville. The result is seen ville. The result is seen in a circulation larger than was ever before enjoyed by any daily paper between Toronto and Kingston. Circulation brings advertisingthere's the situation in a nutshell. WHAT'S IN A NAME? Depends upon the name. Scott's Emulsion is a name that has value. Maybe it doean't mean much to you—but to the consumptive who has been strengthened and fattened, to the sicily children who have received good health, to the weak mothers and babies who have grown strong—to these Scott's Emulsion means something.

To all of them it has meant an easy and natural return to health.

BABY'S HEALTH

THE TRETHING PERIOD DANGER TO LITTLE ONES AND VERY TRYING TO

Indicates a congestion of the membranes—not only of the head, throat and lungs, but of the body. If there's a weak spot it attacks there—just as a prize fighter goes for the solar plexus of his adversary.

A bad cold caused an affection of Matthew Clarks' lungs. He tells how Powley's Liquified Ozone cured him and relieved the chest pains:

the chest paints:

"had a serve odh in hy bed and pain in my chest, for which Lited serves! remedies, but could get no relief.

"has a type meanine editivering pooks, and complained of my couldines. I pocured a lottle of Conce from you, and am plassed to tate I am now cettlery free from pain in the chest and cold in the best.

"A number of my friends are using these, and they think the last remedy they ever tried. (Gipzel)

"MATTINET CARRA, 128 Peter 28., Townsia."

This is the time of year when you

have to be most careful of the affections of the throat and lungs. You may neglect a cold, and it will develop into consumption. Take it in time with Ozone; make the tissues healthy, feed the blood with oxygen, and you will have none of the ills so common and so fatal at this season. The next time you have a cold take Ozone two or three times in hot water before retiring; it will cure your cold like magic. You can prevent or cure bronchitis, pneumonia, lung trouble and consumption by its use.

This is a price most anyone can afford. Some think it quite o little for a good overcoat. Its sale has been phenominal. At the present time we have all sizes in stock; if you went one, call quick.
